

# Gracechurch Sustainability Impact 2023

Sustainability and social responsibility are integral to our corporate strategy and we are committed to creating added value for our clients, survey community and employees.

Since 2021, we have been dedicated to offering charity donations and planting trees for selected surveys completed, offsetting our carbon footprint and giving survey responders and clients the option to get involved too.

We are very proud of our efforts and we pledge that for every survey response we receive we will plant a tree on behalf of the survey respondent.

Thank you for your ongoing support, please get in touch if you would like to collaborate on a project or learn more about our sustainability pledge.
